## E X P E R I E N C E

### ● ADVANCED OFFSHORE SCAFFOLDER

*From 2014 to Present | Inmatch for Van Der Panne*

Working as a team lead, foreman to erect and dismantle scaffolds in the correct sequence and builds to suit the needs of client. Performing scaffolding tasks in various offshore platform installations, substations mainly in North Sea.

- Most recent Oil & Gas projects: L5A, G17A for Neptune. Erecting over the side scaffolds for new railing pots.
- Most recent GWO projects: HKZ Beta for Hellenic Cables, Mermaid CSS for Equans. Erecting, dismantling scaffolds for cable pulling.

### ● LEAD SCAFFOLDER

*From 2012 to 2014 | TRAD Scaffolding*

I was working as a lead scaffolder for TRAD scaffolding, Layher system scaffolds division in London area. Worked in multiple street scaffolding jobs, construction sites. Worked in Fulham stadium project, build a 200m long birdcage scaffold to renovate old roof.

- Erecting and dismantling scaffolds in the correct sequence and builds.
- Ordering scaffold material. Loading, unloading material.

### ● LEAD SCAFFOLDER / FOREMAN

*From 2009 to 2012 | Utges for Altrad*

Had a pleasure to be part of building Neste Oil refinery from the ground up with Altrad. I was working as a scaffolding team lead, later build up myself to foreman role. Project was successfully finished in 2 years time. 250000 m3 scaffolds have been erected and dismantled on this project.

- Erecting and dismantling scaffolds in the correct sequence and builds.
- Working closely with Altrad supervisor and contractors (IREM) scaffold coordinator to ensure scaffolds are build in a safest manner and suit the client needs.
